

Sound Income Strategies, LLC's  
Business Continuity Plan (BCP)

Sound Income Strategies, LLC has developed a Business Continuity Plan on how we will respond to events that significantly disrupt our business. Since the timing and impact of disasters and disruptions is unpredictable, we will have to be flexible in responding to actual events as they occur. With that in mind, we are providing you with this information on our business continuity plan.

Contact us – If after a significant business disruption, you cannot contact us as you usually do at 954-487-1860 or through our website at [www.soundincomestrategies.com](http://www.soundincomestrategies.com), you should contact our custodial firms, TD Ameritrade, at [www.tdameritrade.com](http://www.tdameritrade.com) and/or Fidelity at [www.fidelity.com](http://www.fidelity.com) for instructions on how they may provide prompt access to funds and securities, enter orders and process other trade-related cash, and security transactions.

Our Business Continuity Plan – We plan to quickly recover and resume business operations after a significant business disruption and respond by safeguarding our employees, property, making a financial and operational assessment, protecting the firm's books and records, and allowing our customers to transact business. In short, our business continuity plan is designed to permit us to resume operations as quickly as possible, given the scope and severity of the significant business disruption.

Our business continuity plan addresses: data back-up and recovery; all mission critical systems; financial and operational assessments; alternative communications with customers, employees and regulators; alternate physical location of employees; critical suppliers, contractor, bank and counter-party impact; regulatory reporting; and assuring our customers prompt access to their funds and securities if we are unable to continue our business.

Our custodial firms, TD Ameritrade and Fidelity, back up our important records in a geographically separate area. While every emergency situation poses unique problems based on external factors, such as time of day and the severity of the disruption, we have been advised by our custodial firms that their recovery plans are robust and consistent with many of the best practices of the industry and will restore their own operations and be able to complete existing transactions and accept new transactions and payments as quickly as possible. Your orders and requests for funds and securities could be delayed during this period.

Varying Disruptions – Significant business disruptions can vary in their scope, such as only our firm, a single building housing our firm, the business district where our firm is located, the city where we are located, or the whole region. Within each of these areas, the severity of the disruption can also vary from minimal to severe. In a disruption to only our firm or a building housing our firm, we will transfer our operations to a local site when needed and expect to recover and resume business within 24 hours. In a disruption affecting our business district, city or region, we will transfer our operations to a site outside of the affected area and recover and resume business within 48 hours. In either situation, we plan to continue in business and notify you through our web site [www.soundincomestrategies.com](http://www.soundincomestrategies.com) or our customer emergency number, 954-487-1860. If the significant business disruption is so severe that it prevents us from remaining in business, we will assure our customer's prompt access to their funds and securities.

For More Information – If you have any questions about or business continuity planning, you can contact us at 954-487-1860.
